PRODUCT SHEET:

SOLIDGOLD® and SOLIDGOLD®+
4.00X8 SOLID TIRES

DESIGNED FOR SUPERIOR PERFORMANCE

✓ BUILT TO RESIST THE HARSHEST AIRPORT RAMP CONDITIONS
✓ EXCEPTIONAL SERVICE LIFE
✓ MAXIMUM STABILITY AND DEPENDABILITY

SAGE PARTS engineered the SOLIDGOLD® series tires and wheel assemblies to deliver exceptional service life, dependability, and value for even the most demanding ground support operations.

Demanding GSE operations require the most reliable tires on the market and the SOLIDGOLD® and SOLIDGOLD®+ 4.00X8 solid tire and wheel assemblies are constructed to meet every day operational demands with maximum stability, enhanced performance, and increased service life.

The SOLIDGOLD® series tires are designed as a lightweight low-rolling resist tire providing GSE operations with high durability and cost savings through less tire changes, better fuel consumption, and reduced equipment damage. The tread layers are made from proprietary formulated natural rubber compounds and cure times to provide long life and eliminate rubber chunking found in other brands.

The SOLIDGOLD®+ tire consists of 3-stage construction that combines high-quality materials and a very innovative design, to create the finest 4.00X8 tire on the market. The fabric base layer of the SOLIDGOLD®+ tire is made up of a very durable, specially engineered compound that allows for positive rim adhesion and stability, keeping the tire and rim assembly firmly in place at all times. The two outer layers use very durable natural rubber compounds formulated to withstand carrying heavy loads over long distances.

The SOLIDGOLD® tire is a 2-stage design that uses the same firm fabric base as the 3-stage SOLIDGOLD®+ tire and a single layer of very durable natural rubber compounds formulated for low-rolling resistance, a smooth ride, and long life.

The wheel rims are a split-rim high-gauge design. The two piece rim bolt is connected and torqued to industry standards. The lug holes are recessed to allow for a snug fit to eliminate any slippage. All wheel rims are powder coated with a high-quality finish and is available in white or black.

All SOLIDGOLD® series tires are specialty formulated for all GSE operations

• MANUFACTURED WITH ONLY THE HIGHEST-GRADE COMPONENTS
• TREAD CAP IS PRODUCED WITH PREMIUM RUBBER COMPOUNDS TO PROVIDE A LONG AND TROUBLE-FREE LIFE
• FRICTION BASE LAYER ENSURES MAXIMUM TORQUE DISPERSION, PROPER STABILITY, AND HANDLING
• SOLID FABRIC BASE CONSTRUCTION WITH SOFT, SPECIALIZED OUTER LAYERS
• BUILT WITH THE FINEST QUALITY TWO-PIECE RIMS, TORQUED TO INDUSTRY STANDARDS
• RECESSED LUG HOLES ARE DESIGNED FOR A SNUG AND SECURE FIT

See available models inside

*All models available with black or white rim
3-STAGE: READY TO ROLL WITHOUT RESISTANCE

FEATURES

✓ BUILT TO WITHSTAND HEAVY LOADS OVER LONG DISTANCES
✓ DEVELOPED TO PERFORM IN THE TOUGHEST RAMP CONDITIONS
✓ THREE SPECIALLY DESIGNED LAYERS

3 INNOVATIVE HIGH QUALITY SPECIALLY DESIGNED LAYERS

1: Tread layer is made from specially formulated natural rubber compounds to provide long life and eliminate rubber chunking found in other brands
2: The inner core layer provides enhanced heat dissipation and maximum cushioning
3: The base layer material provides a solid foundation and increased stability

SAGE PRODUCT#  DESCRIPTION  RIM CONFIGURATION
S35400X8W250  3-STAGE  WHITE RIM/2.5 INCH HUB PILOT
S35400X8B250  3-STAGE  BLACK RIM/2.5 INCH HUB PILOT
S35400X8W338  3-STAGE  WHITE RIM/3.38 INCH HUB PILOT
S35400X8B338  3-STAGE  BLACK RIM/3.38 INCH HUB PILOT

*Quality Engineered Compound Reinforced with High Tensile Nylon
A 2-STAGE TIRE THAT CAN HANDLE THE HEAT

FEATURES

✓ BUILT FOR HIGH RELIABILITY AND LONG LIFE
✓ DEVELOPED TO PERFORM IN ALL RAMP CONDITIONS
✓ TWO HIGH-QUALITY SPECIALLY DESIGNED LAYERS FOR CARRYING THE LIGHTER LOADS

2 SPECIALLY DESIGNED LAYERS

1: Tread layer is made from specially formulated natural rubber compounds to provide long life and eliminate rubber chunking found in other brands

2: The base layer is made from a very durable fabric/rubber compound designed for increased tire stability and to extend overall service life

SOLIDGOLD® and SOLIDGOLD®+ 4.00X8 SOLID TIRES

SOLIDGOLD® series tires from SAGE PARTS are the ideal 4.00X8 solid tire. Versatile use over a variety of vehicles including:
- AIRCRAFT MAINTENANCE STANDS
- BAGGAGE CARTS
- PALLET DOLLIES
- TOW BARS
- CONTAINER TRAILERS
- CREW STANDS
- GROUND POWER UNITS
- AIR START UNITS
AND MANY MORE
